RECU

Régie du courrier du Ministre
Santé Nationale et bien-être social Canada

This letter is inspired by the current activities of the Human Ecology Foundation of Canada in organizing branches throughout the District of Parry Sound to alert and to inform the public regarding environmental illness.

One writes on behalf of the Almaguin North Action Group (ANAG), consisting of four committees reflecting the participants' major cultural, economic, and societal anxieties - Education; Environment (including Agriculture and Forestry Subcommittees); Research; and Social Concerns.

In general terms, ANAG's objectives may be described as:

To co-operate in enlarging the window on the world here for teachers, students, parents, and the general public;

To reduce and to counteract the severe impacts of air, soil, and water pollutants;
and

To improve the economy and cultural and social services;

In the District of Parry Sound.

This is a request for two dozen copies of each layman's text relating to environmental illness available through your office.

The next session of ANAG's Research Committee is scheduled for 7.30 p.m., Tuesday, February 23 at the Powassan United Church. Is there a possibility that a member of your staff will be in this area on that date and available to discuss with us environmental illness and the recommended counteractions available through your agency?

On behalf of my peers in ANAG, I thank you for your consideration.

With every good wish, I am

As ~~A~~ever
